PROFESSIONAL SUMMARY

Self-taught software developer with 10+ years of IT and technical support experience, now building and shipping production software independently — full-stack PHP/MySQL platforms with live payment integrations, and native Android apps in Kotlin with Jetpack Compose and Firebase-backed licensing. Currently expanding into Laravel. Combines deep systems/hardware troubleshooting background with hands-on modern development skills and a proven record of independent delivery and clear client communication.

TECHNICAL SKILLS

Backend & Database: PHP, MySQL, PDO (prepared statements), Laravel (in progress), Firebase / Firestore, REST APIs

Android Development: Kotlin, Jetpack Compose, Android Studio, OSMDroid, Android LocationManager

Frontend: HTML5, CSS3, JavaScript

Tools & Deployment: Git, VS Code, Hostinger, XAMPP, PHPMailer / SMTP integration

Systems & QA: Hardware/software diagnostics, functional & cross-browser testing, system installation & configuration

Networking & Infrastructure: LAN/WAN configuration and deployment, remote support tooling, CCTV system integration

Client & Team: Technical consultation, cross-functional collaboration, troubleshooting documentation

SELECTED PROJECTS

IYQuick Store — E-Commerce Platform | *PHP, MySQL, PDO, PHPMailer*

Full PHP/MySQL e-commerce platform built from the ground up — product slider, category/brand browsing, multi-image galleries, admin panel, and a custom GCash payment flow with email claim codes and staff order release.

Fake Location — Android GPS Utility App | *Kotlin, Jetpack Compose, OSMDroid, Firebase*

Native Android app for setting custom GPS location via a tap-to-pin OSMDroid map, with a Firebase-backed licensing system (free trials, GCash subscriptions, redemption codes) and remote update-check system.

Retail Management System | *PHP, MySQL, Laravel — In Development*

Web-based internal retail system for order entry, warehouse returns, inter-branch transfers, and stock inquiry, built to connect with the IYQuick Store database.

PROFESSIONAL EXPERIENCE

Sales Technician — *Silicon Valley, Robinsons Place*

Aug 2018 – Present

- Perform hardware configuration, software installation, and troubleshooting for retail customers, plus on-site support and product consultations.

Dell Promoter — *Lamonte Sales & Merchandising*

Sept 2017 – Aug 2018

- Provided technical product guidance and hardware demonstrations, matching system configurations to customer needs.

IT Technician / Custodian — *Enigma Technologies*

June 2016 – Sept 2017

- Managed on-call field dispatch for infrastructure installations; designed and integrated CCTV systems for commercial and residential sites.

IT Technician — *Abana Computer Services*

June 2010 – June 2016

- Assembled and diagnosed desktop/laptop systems; configured and optimized LAN/WAN networks for small-to-medium enterprises.

EDUCATION

Bachelor of Science in Information Technology (BSIT)

Cagayan State University – Carig Campus, Tuguegarao City | May 2005 – June 2009
